# BASEBALL'S FATE TO BE DECIDED THIS WEEK

The Major Leagues Would Be a Farce if They Continued Should Government Declare the Sport Non-Essential, Compelling All the Players Within Draft Age to Withdraw.

By Hugh S. Fullerton Copprigit, 1918, the Prop. Dablishing Co. New York Evening World.)

HIS is the week in which the fate of major league baseball probably will be decided. If the

orders all players within the age limit to drop their employment and find productive work it is going to be a hard problem for the owners to fill their teams and carry out the schedule and, even M they succeed, the major leagues

will be more or less of a farce. If, as the owners hope and expect, the Government adopts a lenicht attitude and decides that the players are useful in furnishing recreation and relaxation had relaxation that the only those drive straight at a fielder. When a team is so slow on the bases that the opposing team can play the that the opposing team can play that the opposing team can play that the opposing team can play the players without nurrying it is seriously haddleapped and it requires a lot of base hits to cover up that lack of smeath. to the people, and that only those who are liable for active military duty will be called, then the major league ruces will continue as heretofore, and there is even a chance that some of the players who have gone into other fields will return to strengthen certain

two players have become discouraged and quit because things were not as they hoped-Dugan, the young Holy Cross infielder being the last, as he quit the Athletics Saturday, after striking out twice with runners on

## Trudgeon Regarded Best Stroke For Rough Water Swimming

Swimming Lesson-No. V

"The Most Difficult Part of Learning to Use the Trudgeon," Says Expert Elionsky, "Is to Become Familiar With the Rolling of the Body That Is Necessary to Lift the Arms Out of the Water."

By Harry Elionsky.

(Champion Handicap and Long-Dis-tance Swimmer of the World.) (Written Ensluding for The Brening World.) NEXT to the crawl, the trudgeon is the most next stroke. Before the crawl was introduced, a few years ago, the trudgeon was used for all distances. This stroke is best for ocean and rough water swimming. The most difficult part of learning to use the trudgeon is to become familiar with the rolling of the body that is necessary to lift the arms out of the water. The first movement of the left arm is to extend it straight out from the body, with the fingers together and the arm arched downward in a half circle. The arm is brought down di-

The right arm starts at the hip with the paim downward and raised above them for that oreak, it is due to give the head, turning the wrist so that Adams credit for making a fine play the palm is turned downward as it at the critical moment of the game. With runners on first and second reaches the water. The right arm is

on the buried ball. It was disapsponting, but not bad baseball.

The Tilants are much improved in
opinit, and they are bittless better the starting its downward. In other words, in the trudgeon stroke the arms always work directly opposite to each other.

When the right arm is being pulled down, the head is turned to the left, and to the right when the left arm is pulled in like manner. The head should be allowed to roll with the body at every stroke. The movement ble to go Mimediately, or within the BOSTON BRAVES and Brooklyn head moves in the wrong direction it are going to try an experiment is impossible to make the stroke.

the clubs are not satisfied with that will count. The Boston Club in de- ter which is given alternate strokes of

there for material with which to round out their clubs in case the Govscrument demands the services of all.

There was report Saturday, which was not confirmed, that a high Govscrument official had assured persons connected with the Washington Club that the Crowder work or fight order

The kick should be made with every alternate movement of the arms. I favor the trudgeon leg stroke with a crawl flutter. If a swimmer prefers to breathe on his left aide, the trudgeon leg stroke with a crawl flutter should be made with every alternate movement of the arms. I favor the trudgeon leg stroke with a crawl flutter to breathe on his left aide, the trudgeon leg stroke with a crawl flutter should be made with every alternate movement of the arms. I favor the trudgeon leg stroke with a crawl flutter to breathe on his left aide, the trudgeon leg stroke with a crawl flutter should be made with every alternate movement of the arms. I favor the trudgeon leg stroke with a crawl flutter to breathe on his left aide, the trudgeon leg stroke with a crawl flutter. If a swimmer prefers to breathe on his left aide, the trudgeon leg stroke with a crawl flutter. If a swimmer prefers to breathe on his left aide, the trudgeon leg stroke with a crawl flutter. If a swimmer prefers to breathe on his left aide, the trudgeon leg stroke with a crawl flutter. If a swimmer prefers to breathe on his left aide, the trudgeon leg stroke with a crawl flutter. If a swimmer prefers to breathe on his left aide, the trudgeon leg stroke with a crawl flutter. If a swimmer prefers to breathe on his left aide, the trudgeon leg stroke with a crawl flutter.

ELIONSKY WHO IS TEACHING OUR SAILOR BOYS TO SWIM

eved, thus bending the back the

nouth is the highest part of the body thite swimming in this way, it gives he novice more confidence. Naturally, the muscles must be rigid when the stroke is made, but should be relaxed immediately after. The arm directly in back of the swimmer.

ter. A good way to practise this stroke is to support the upper part of the body in the water by grasping hold of some suitable object. Make certain that the whole body is submered. It is a good plan to practise breathing at the same time, raising and lowering the head in the water.

SWIMMING ON THE BACK.

There is, no more restful stroke than that of swimming on the back. When a swimmer is traveling through the water the back is almost constantly arched, which produces a severe strain on the muscles of the small of the back. By turning over on the back the strain is immediately relieved, thus bending the back the ng distance swim. Because the pircon style as well as possible.
